CIS OFFERS FREE CATALOG OF 97TH CONGRESS LEGISLATIVE HISTORIES

A comprehensive catalog of 97th Congress public laws for which legislative histories can be acquired through the CIS Legislative History Service is now available from CIS.

Included are 127 public laws, among them the Economic Recovery Tax Act, the Garn-St. Germain Depository Institutions Act, the Futures Trading Act, and the Costal Barrier Resources Act. For each law, the catalog shows the public law number, title, date approved, Statutes at Large citation, and the price of the CIS legislative history.

The catalog also provides information on two collections of histories, which are available at a discount from the price of acquiring histories of the laws individually. These are: the complete history (27 titles) of the Omnibus Budget Reconciliation Act of 1981; and histories for the 30 most significant public laws enacted by the 97th Congress.

The CIS Legislative History Service provides complete citations to, and full-text reproductions of all official publications that make up the history of significant public laws enacted by the 97th and succeeding Congresses. Histories are available individually on demand or by subscription. In addition to the 97th Congress laws, histories for major 98th Congress laws are also currently available.

For a free copy of the catalog, write: Legislative Histories, Congressional Information Service, Inc., P.O. Box 30056, Bethesda, Maryland 20814. Or call Customer Service at 800-638-8380 (toll-free) or 301-654-1550.

CORRECTION: Information regarding Missouri in the "Survey of State Aid to Public Libraries 82-82" (August 1983) should be updated. More recent 83-84 data shows Missouri with 31¢ per capita as 31st of the 45 states providing state monies for public or multi-type systems or networks.
